Read what Plankinton & Armour, the great packing house firm say when first buying the Machine.

OFFICE OF PLANKINTON & ARMOUR, KANSAS CITY, Mo., March 6, 1880. GENTLEMEN: We would say that we have been trying for nearly ten years to get a sewing machine that would sew satisfactorily the heavy muslin bags for hams. Have tried a number of machines, but until we tried the Royal St. John we have never been able to get a machine that would make a long clastic statch without drawing or puckering the cloth. Your machine does the work perfectly, on account of the firm, round, clastic stitch peculiar to the St. John; and by its rapid motion and light running we are able to make on one machine about 1,500 sacks per day with ease to the operator. This we could not do on any other ma-chine, although we tried them thoroughly. We also regard it as the simplest, most durable and lightest running machine we have ever tried. We have put it to the

OFFICE OF PLANKINTON & ARMOUR, KANSAS CITY, Mo., April 25, 1881. MESSRS, TRUMBULL, REYNOLDS & ALLEN: Gentlemen-In answer to vot bought of you, would say that after using them almost constantly for some eighteen months, and making on an average of over half a million sacks on each machine or at the rate of 1,500 to 1,800 on each machine per day, we like them as well as when we first bought them. Cannot see any preceptible wear, and no Sewing Ma. chine that we have ever seen would have done the work as satisfactory and with as little trouble and expense to us, not having cost one cent for repairing.

PEDIGREK;—Ben Harrison was bred by James Wilson, of Reshville, Indiana, sired by Wilson's "Blue Bull," he by "Old Blue Bull," the reputed sire of many fast pacers; dam by "Copper Bottom," second dam by "Ramsey's Eclipse," he by "American Eclipse."

Wilson's Blue Bull was got by Old Blue Bull, there puted sire of many fast pacers; dam by Blacknose, son of Medoc, out of Lucy, by Orphan: 3d dam, Lady Grey; 3d dam, Maria, by Melrar.

Mesoc, by American Eclipse, out of Young Maid of the oaks, by imported Expedition; 3d dam, Maid of the Oaks, imported Spread Eagle; 3d dam, Annette, by Shark.

Duroc, by imported Diomede, out of Amanda, by Gray Diomede; 2d dam by Virginia Cade; 3d dam by Hickman's Independence; 4th dam, Dolly Fine, by imported Silver Eye, etc., etc.
A reference to the 2:30 list of trotters is sufficient to convince the most aceptical of the superiority of the Blue Bulls as recehoraes: Will Cody, 2:19%; Channe, 2:29%; Richard, 2:21; Silverton, 2:23%; Elsie Good, 2:23%; Ethel. 2:25; Kate Hall, 2:26; Mila C. 2:25%; Ed. Blue Bulls are natural-born trotters. They take to the trotting gait as naturally, or instinctively, as a duck does to water, and it is safe to say that not one of them was ever fonied that could not, by reasonable training, trot a mile in three minutes, or better. They are proverbially "level-headed," always ready and willing to do to the extent of their ability, and when in condition were never known to exhibit the white feather, no matter how long the route.
